

Timeframe

The business defines when the changes must be completed by, aligned to key dates for their customers and the seasonality of their work.

Iteration
Provide an explanation of how the timeframe will be used, by dividing the change into a series of outcomes, each of which is delivered by an iteration.

Iteration 1

Iteration 2

Iteration 3

Iteration 4

Outcome

Outcome for Iteration 1
Assessing the impact of the overall change, specifying the business need and the high level requirements.

Outcome for Iteration 2 onwards
The desired result from creating the tangible outputs and developing the new ways of working.

Process
Group together the activities needed to progress through each iteration, providing consistency in how the change is developed and delivered.

GS MP RB

GS MP RB

GS MP RB

GS MP RB

10-20% of the time
Getting started – defines and plans the work that will take place in the iteration

60-80% of the time
Making progress – where new ways of working are designed and tested

10-20% of the time
Realizing benefits – deploys the changes into the live business environment and checks that the desired benefits are being generated

- GS – Getting Started
- MP – Making Progress
- RB – Realising Benefits
